THE COMPANY

HERITAGE

We have provided the top historical car manufacturers with innovative restraint systems for decades.

SAFETY

For Sabelt, safety is of the utmost importance: first in the car, supplying the best seat belts in the world, second for drivers all over categories and championships.

DESIGN

Sabelt offers high performance levels integrated with style and design. Each component is designed and engineered either exclusively by Sabelt in support with external Design&Style centres or in partnership with the client.

INNOVATION

We transform ideas into products. We collaborate with our customers to study new and better solutions and meet specific needs and new requirements. All our products are the result of a process that brings together various novel ideas with engineering and technology.

Sabelt, founded in 1972 by Piero and Giorgio Marsiaj, specializes in the development and production of car seats for performance road cars, racing products for motor racing and seatbelts for aerospace. The quality of Sabelt products is the result of intense research and development, which allows it to reach the highest levels of performance and safety. Sabelt invests 8% of its resources annually in research and development and is the only company in its sector to have an internal dynamic test laboratory to perform ECE and FIA tests, aimed at verifying the strength and effectiveness of its products.

SUSTAINABILITY

SUSTAINABLE LIGHTWEIGHT FOR A MORE SUSTAINABLE FUTURE

Sabelt aims to develop a process that meets the needs of the present, without compromising the ability of future generations to meet their own needs. In order to achieve sustainable development, it is important to harmonize three key elements:

- Economic growth
- Social inclusion
- Environmental protection

Since 2018 Sabelt has been working in reducing the environmental impact of its products and production. The aim is to design and produce new kinds of products made of sustainable natural fibre instead of traditional composite reinforcement, such as carbon fibre and glass fibre.

The harvesting and processing of flax takes place in the EU rural areas it was grown in. Using European flax sourced through well established and transparent supply chain that allows to support the economic and social structure in rural areas.

Sabelt is working with its partners to develop a seat shell made of Flax fibre. The benefit of this work are various, starting from the reduction of the use of plastic, the reduction of the CO2 footprint and more efficient use of energy due to the processing of sustainable material.

SAFETY AND LABORATORY

The pursuit of safety has played a key role since the foundation of Sabelt. We have been the first to equip the laboratories of our plant with a dynamic test which simulates crashes and pre-homologates products for the strict automotive standards: an innovative system prescribed by ECE and FIA regulations. All tests are conducted with the specific intent to maintain a bigger margin to the minimum required, with outstanding performance levels built with style and design.

PRODUCTION

All Sabelt products are designed and engineered exclusively by Sabelt in the operational headquarters in Turin, in collaboration with external design centers or in partnership with clients car makers.

AUTOMOTIVE SEATING

From the world of motorsport, Sabelt has developed a range of premium sports seats for the world's top car manufacturers. It designs and manufactures safety belts and seats for vehicles with a strong sporting connotation, dedicated to an advanced and demanding driver, that is sports oriented and has a particular attention to quality. Its main partners are: Ferrari, McLaren, Alpine, Abarth, Alfa Romeo, Jaguar, Cupra, Maserati and Aston Martin.

SPECIAL APPLICATIONS

Sabelt is able to develop and implement new technologies dedicated to various applications of safety seatbelts in niche markets, such as the military, aviation, aerospace, exceptional transport and many other fields where technical and customized products are required. Since 2010, Sabelt has been the supplier of Thales Alenia Space Italia for the restraint systems of the Cygnus Orbital-ATK module (belts and nets).

BUCKLES

**B1**

Tongues entry designed to simplify the driver fastening. Machined from solid aluminium.

**B5**

Tongues entry designed to simplify the driver fastening. Quick release with spring ejectors. 255 g

**B2**

With integrated crotch belt "T" type attachment. Aluminium. Patented buckle. 219 g

**B6**

Developed with Formula 1 Teams. Superlight buckle in machined from solid aluminium.

**B3**

For "Formula" safety belt developed in Formula 1. Aluminium. Protection for the lever. 192 g

**B4**

Buckle for 4 points safety belt. Aluminium. 184 g

**B7**

Developed for Endurance applications. 2019 and 2021 24h Le Mans winner. 266 g

**B8**

Latch buckle with leather pad and adjuster. 514 g

ADJUSTERS

**A9**

2" Quick release adjuster machined from solid aluminium. Developed in Formula1. 54 g

**A10**

2" Quick release adjuster machined from solid aluminium. Developed for double shoulder belt. 74 g

**A1**

Quick release adjuster for 3" webbing. Forged and anodized aluminium. 2021 24h Le Mans winner. 95 g

**A2**

Quick release adjuster for 2" webbing. Forged and anodized aluminium. 70 g

**A13**

Aluminium quick adjuster 2" with webbing guide. 2019 24h Le Mans winner. 78 g

**A16**

Lap strap tongue with integrated adjuster for 2" width webbing. Steel. 2021 24h Le Mans winner. 113 g

**A3**

Adjuster integrated to the buckle tongue designed for 2" webbing. Developed for GT/Endurance cars. Steel-aluminium. 2019 24h Le Mans winner. 123 g

**A4**

Adjuster for 2" webbing. Steel-aluminium. 113 g

**A5**

"America" adjuster for 3" webbing. Steel. 147 g

**A6**

"America" adjuster for 2" webbing. Steel. 94 g

**A14**

"Tribar" adjuster for 2" webbing. Steel. 80 g

**A7**

"Tribar" adjuster for 3" webbing. Steel. 110 g

**A8**

"Tribar" adjuster for 2" webbing. Steel. 80 g

**A12**

"Bufflug" steel adjuster. 63 g

**A11**

Steel "Stop" adjuster for 2" webbing. 24 g

**A15**

Ergal "Tribar" adjuster for 3" webbing. 64 g

FIXINGS

**F1**

Carabiner. Inox Steel. 24 g

**F2A**

Snap hook in combination with A7 or A8. Steel. 77 g

**F2B**

Sewn snap hook. Steel. 77 g

**F3A**

Fixing plate in combination with A7 or A8. Steel. 63 g

**F3B**

Sewn fixing plate. Steel. 63 g

**F4**

Sewn "P" type steel fixing plate. 47 g

**F5**

"Wrap around" fixing in combination with A7 or A8.

**F6**

"Sewn loop" fixing.

**F7**

Titanium double fixing plate for 2" webbing. For M8 screw. 38 g

**F8**

Small Sewn fixing plate. 45 g

**F9**

Small fixing plate. 44 g

**F10**

Double hole fixing plate. 38 g

**F11**

Sewn double hole fixing plate. 38 g

**F12**

X2 double hole fixing plate. 76 g

TONGUES

**T1**

Lap belt tongue with ergonomic bend. Steel. 32 g

**T2**

Shoulder belt tongue for 3" webbing. Steel. 30 g

**T3**

Shoulder belt tongue for 2" webbing. Steel. 23 g

**T4**

Titanium mini-tongue for CCG622FSR, CCG832FSR harnesses. 7 g

**T5**

Titanium tongue for E1 harnesses. 9 g

**T6**

Lap belt tongue with ergonomic bend. Titanium. 18 g

**T7**

Steel shoulder belt tongue +5 mm. 38 g

**T8**

Lap strap link. 86 g

**T9**

Left shoulder strap link. 69 g

**T10**

Right shoulder strap link. 69 g

**T11**

Crotch strap link. 57 g

OPTIONALS

**02**

Logo printed directly on the webbing in high grip material for FHR.

**04**

Closure velcro for adjustable straps.

**05**

Ergonomic handle.

**06**

Intercom or Drink System cord.

**07**

Velcro on upper shoulder belt.

**08**
