FIA APPROVED

MANUFACTURER: Alpinestars
MODEL: HYPERTECH V2
HOM. NO.: DC.013.19-O
FIA STANDARD: 8856-2018

Hypertech v2 suit

autoracing

size: 44-60 (44-62 black red)

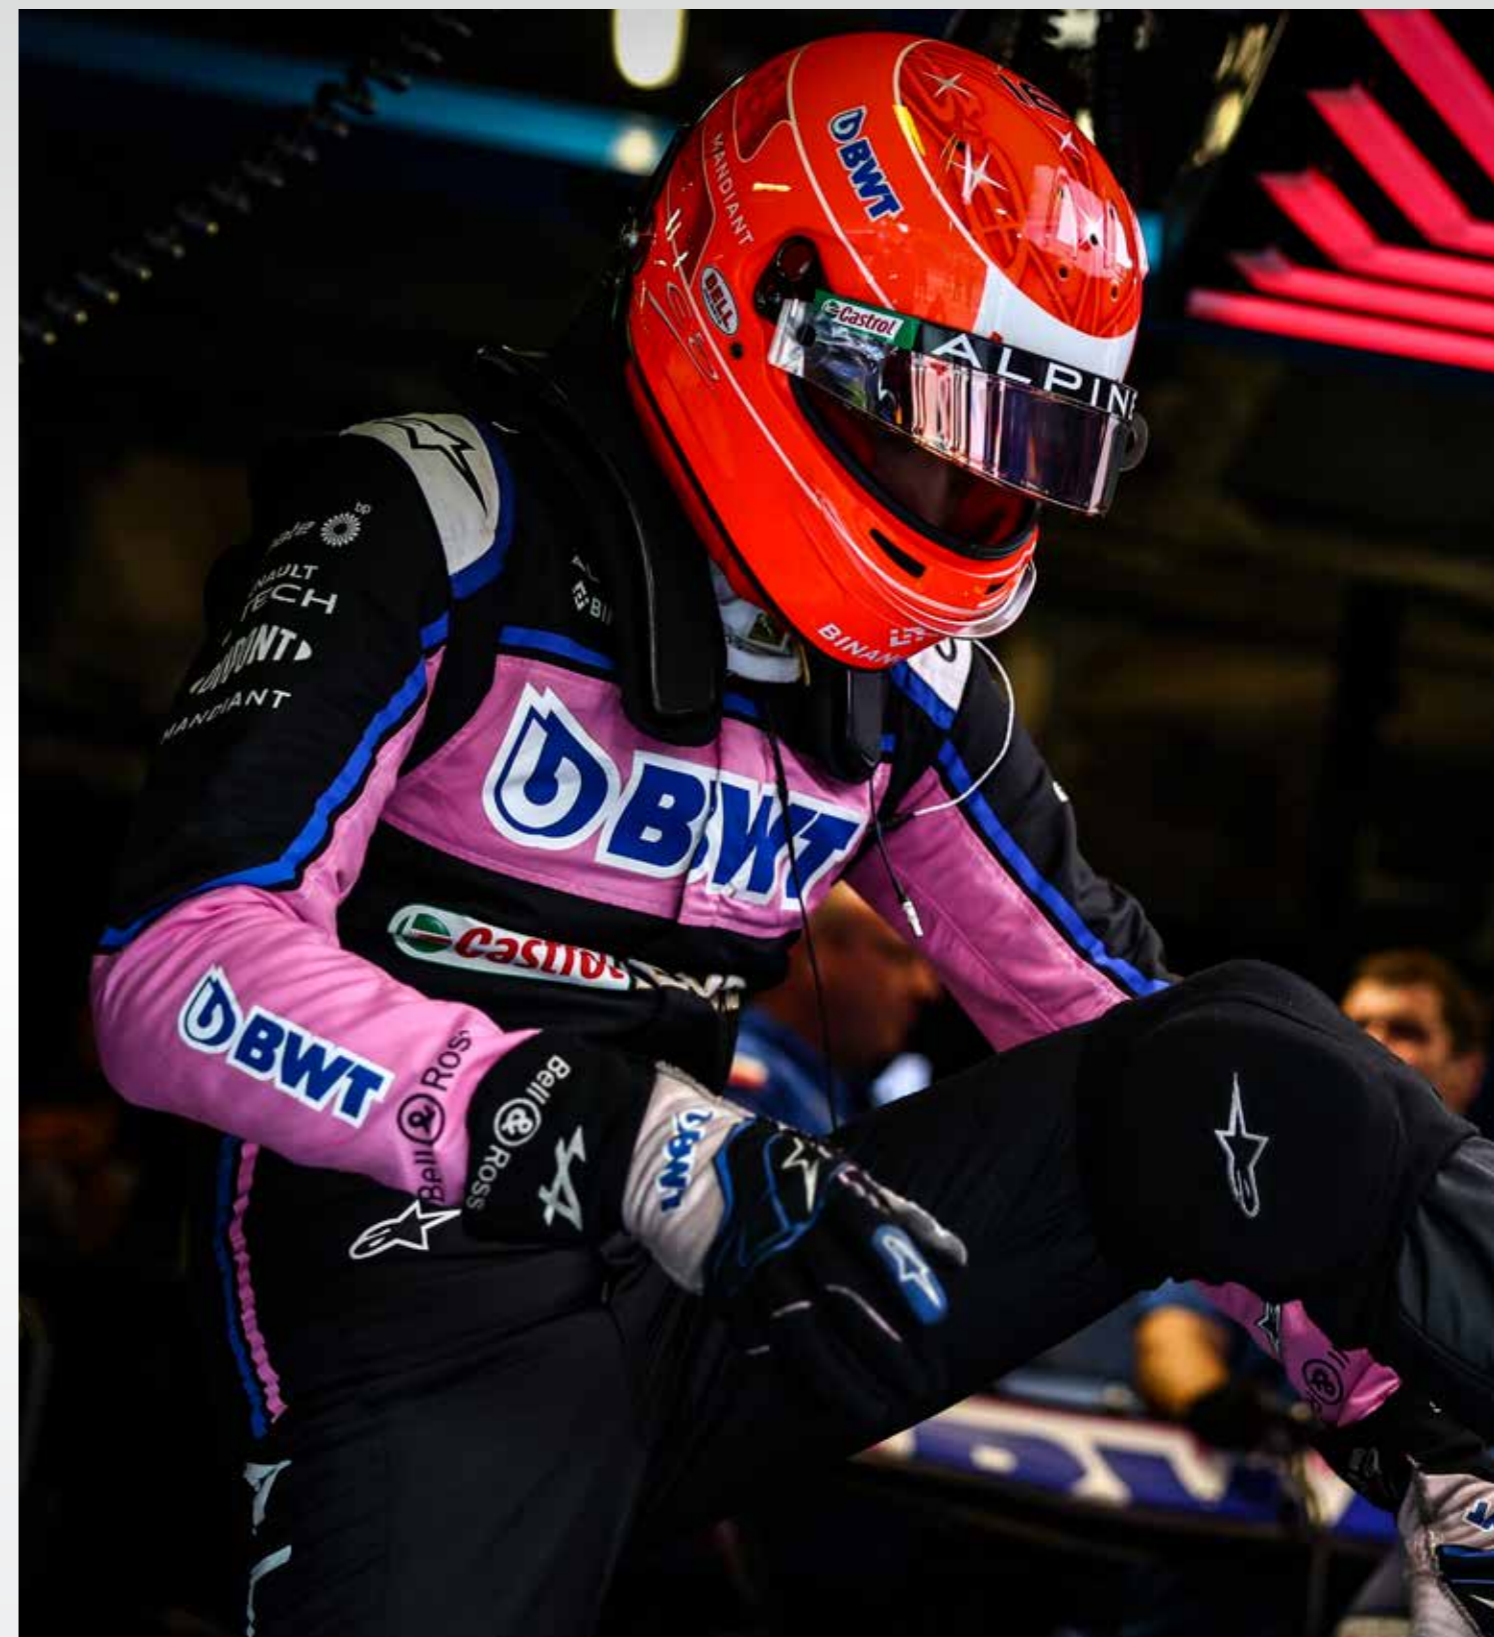

- Certified to the new FIA 8856-2018 homologation standard.
- Super-lightweight and breathable two-layer suit incorporating thin stretchable panels for maximum comfort and effective regulation of body temperature.
- Innovative soft lining material technology ensures breathability and comfort.
- Strategically positioned Formula 1-derived stretch panels at lower back and sides, elbow, crotch and knee zones for enhanced flexibility, both in and out the car.
- Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.
- Outershell fabric made with DuPont™ Nomex® fabric offers exceptional heat and flame-resistant properties.
- Soft and thin wrist and ankle cuffs for maximum comfort and reduced weight.
- Flat seam construction for reduced pressure points and improve strength.
- Specially-designed soft collar incorporates leather details, knit fabric and secure hook and loop closure.
- Alpinestars exclusive shoulder epaulette construction provides an effective feature for the extraction of the driver in the event of a crash.
- Printed logos help maintain the suit's material integrity and reduce overall weight.
- Premium YKK thin lightweight zipper personalized with Alpinestars leather puller, plus double slider for a versatile and customizable fit.
- Sold with laundry bag for convenience and to protect material fibers.
- Ultra fit design.
- Weight 265g/sqm.
- DuPont™, the DuPont Oval Logo, and all products, unless otherwise noted, denoted with ™, SM or ® are trademarks, service marks or registered trademarks of affiliates of DuPont de Nemours, Inc.

Gp Pro Comp v2 suit

autoracing

size: 44-64

The GP Pro Comp v2 features an outer shell plain material developed exclusively for Alpinestars which is combined with a soft aramid base knit lining for optimum levels of comfort, protection, light weight and comfort. Thanks to the introduction of the aramid base lining with an open weave structure, this suit delivers enhanced levels of breathability, and this is reinforced even further by the strategically-positioned knitted stretchable open mesh panels on the back, crotch and armhole for additional airflow and flexibility, both in and out of the car. This suit also incorporates innovative silicon grip technology detailing on the shoulders and lower back to prevent any movement with the car's seat or a HANS device, and also to reduce pressure on the shoulder.

1. Certified to the new FIA 8856-2018 homologation standard certification.
2. Lightweight and breathable multi-layer suit incorporating mesh stretchable panels for maximum comfort and effective body temperature regulation.
3. Innovative silicon grip technology details on shoulders and lower back to provide more feeling / connection with the HANS device and inside a car seat.
4. Formula 1-derived cable opening for cooling vest system or communications on the left of the body, covered by a self-closing flap to ensure maximum levels of protection.
5. Strategically positioned Formula 1-derived stretch mesh panels on the lower back and crotch for enhanced flexibility, both in and out the car.

- Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.
- 100% aramid anti-static outershell fabric for exceptional heat and flame-resistant properties.
- Ribbed wrist and ankle cuffs for maximum comfort and reduced weight.
- Tall ribbed collar for extended coverage of the neck and improved driver comfort.
- Alpinestars exclusive shoulder epaulette construction provides an effective feature for the extraction of the driver in the event of a crash.
- Opening for cable for cooling vest system or communications on the left of the body, covered by a self-closing flap to ensure maximum levels of protection.
- Premium YKK metal zipper for durability.
- Double slider on front for a versatile and customizable fit.
- Thigh pockets for convenient, unobtrusive storage.
- ALPINESTARS PROTECTS slogan on the lower back of the lining; the same design as used on Alpinestars F1 racing suits
- Comes with a laundry bag for convenience and effective material fiber protection.
- Athletic-Regular fit design.
- Weight 345g/sqm.

Tech-1 Zx v3 Glove

autoracing	size: s - 2xl
------------	---------------

Alpinestars is always looking for new ways to improve driver safety and increase protection. The new generation of auto gloves provides nearly a 20% improvement in heat transmission. This has been achieved while still offering the exceptional combination of fit, feel and grip for which our gloves are known.

1. Developed with leading drivers in F1 and Endurance, with a new dual-sided honeycomb two-layer fabric, the Tech-1 ZX v3 Gloves offer exceptional protection while significantly improving breathability.
2. The new 3D silicon print palm provides excellent levels of grip from a reduced print surface, giving more feel. The glove's pre-curve shape has been increased

from the previous version, resulting in better fit and less material bunching when holding the wheel.

- Advanced, breathable, and flame-resistant honeycomb, aramid fiber main assembly with bonded aramid lining to ensure for optimal temperature control and maximum comfort and feel.
- External seams provide superior comfort and prevent any excessive pressure points from forming on the hands while driving.
- Pre-curved fingers and palm help improve fit and reduce fatigue while driving.

- Outer grip zones for superb control and feel on the cockpit's controls.
- Ergonomically designed 3D grip technology on palm and fingers with strategically positioned silicon surface patterning for improved flexibility and control.
- Touchscreen compatible thumb and second fingertip.
- Certified to FIA 8856-2018 homologation standard
- The Tech-1 ZX v3 Gloves will be available in 6 new colorways: Black Anthracite, Black White Red, Black Red, Black Orange Fluo, Black Blue, and Tar Gray Black Yellow Fluo.

Tech-1 Race v3 Glove

autoracing	size: s - 2xl
------------	---------------

Offering increased levels of protection from the previous generation, the new Tech-1 Race v3 Glove has many features and benefits of a higher price point glove, such as pre-curved fingers and external palm seams to reduce pressure points. Flame-resistant aramid fiber main assembly with bonded aramid lining for optimized levels of performance, comfort, and safety.

1. External seams on palm side for increased comfort.
2. Full gauntlet single panel top construction to minimize seams and reduce weight.
3. Pre-curved fingers and palm to help improve fit and reduce fatigue while driving.
4. Extended silicon printing on fingers and full palm for improved grip and feel.
5. Extended cuff length in accordance with

6. Certified to FIA 8856-2018 homologation standard
- The Tech-1 Race v3 Gloves will be available in 6 colorways: Black Tar Gray, Black Red, Black Yellow Fluo, Black Orange Fluo, Black Blue, and White Red.

Tech-1 Start v3 glove

autoracing	size: s - 2xl
------------	---------------

Designed with a single upper panel and innovative finger construction, the Tech-1 Start v3 Gloves have been engineered to reduce the excess material in the fingers, as well as the total weight of the glove.

1. Box cut fingertip construction offers a seam-

- less no-fourchettes design on the ring and middle fingers, resulting in a glove which is anatomically optimized for a confined cockpit.
2. Ergonomically positioned silicon printed zones on palm for enhanced grip.
3. Close-fitting, straight, extended with elasti-

- cated wrist for easy entry and a secure fit.
 4. Certified to FIA 8856-2018 homologation standard
- The Tech-1 Start v3 Gloves will be available in 4 new colorways: Black, Red, Yellow Fluo, and Royal Blue.

---	---

The Tech-1T v3 offer drivers optimum levels of comfort, fit and feel. Featuring a full bovine leather construction, the shoe boasts a cut away section at the heel to allow movement while operating the pedals with no pressure points while driving. Every aspect of the shoe has been carefully considered to keep weight as low as possible; the hook and loop strap is a single layer for added lightness, while also ensuring there is no pressure point on the instep, and the classic lace closure system features hidden loops on the lateral and medial to guarantee a snug but unrestrictive fit. The all-new rubber sole, which mimics an asymmetric tire tread, is water repelling and oil resistant to offer high levels of grip and thicker for enhanced levels of comfort in and out of the car, while the mid sole offers reassuring levels of cushioning. Other neat touches include an outer toe protector for comfort and durability, and a Nomex® lining to protect the entire foot against heat.

1. Complies with SFI (SFI: 3.3 / 5)

homologation standard.

- Main upper material made by full grain bovine leather for the optimum blend of mechanical resistance and driver comfort.
- Equipped with a rear elastic fireproof collar for light weight and enhanced driver comfort.
- Strategically-positioned perforation zones on the lateral and medial sides for maximum breathability and airflow.
- Perforated tongue padding for high levels of comfort and breathability.
- Engineered protection with dedicated lateral and medial toe protectors.
- The dual closure system incorporates an adjustable hook and loop strap plus a traditional lace and a hidden loop system for enhanced durability, as well as a more personalized fit and a secure closure.

- Para-aramidic fiber tubular lining construction for excellent heat-resistance, weight saving and strength.
- Rear pullers for easy entry and a precise fit.
- Lightweight micro-porous padding around the heel and insole entrance for enhanced comfort while driving.
- All graphic elements are in transfer technology for further weight-saving and improved performance.
- Collar and tongue padding constructed from nitrile rubber for comfort and lightness.
- Alpinestars one-piece toe and heel counter features a multi-compound construction and ergonomic polypropylene heel counter plus an integrated insole, which provides support, protection and stability.
- Alpinestars exclusive thin rubber compound outsole, derived from Formula 1's race program, delivers unsurpassed levels of feel and sensitivity with the pedals, while the textured pattern ensures optimum levels of grip.

---	---

Complies with SFI (SFI: 3.3 / 5) homologation standard. Fireproof materials and components used throughout for superior driver protection. Main upper constructed from premium suede for optimum levels of durability, comfort and fit. Sleek shoe profile delivers optimized levels of performance both in and out of the car while ensuring optimal feedback from the pedals. Polypropylene and leather combine to create a double layer which sits on the footbed structure for

enhanced driver comfort and a more precise fit. New light and ultra-thin rubber compound sole for improved pedal feel. Integrated rubber midsole for greater heel protection. Soft material on the rear collar for greater Achilles heel comfort. Reinforced heel counter offers additional protection and structure in a key area for a precise secure fit. Double lateral panels for enhanced driver protection.

Traditional lacing for ease of use with gloved hands. Lining construction made with DuPont™ Nomex® for excellent heat resistance. Ankle padding constructed with Nitril Rubber for enhanced comfort and weight saving. Embroidered logos and graphics. The SP+ Shoe brings F1 derived features to a lower price point with a mix of leather and suede construction for softness with durability where required. The rubber outsole mimics an asymmetric tire tread and is water repelling and oil resistant to offer high levels of grip.

1. Main upper material made with a combination of suede and full grain bovine.
2. Achilles zone construction in a soft cushioned knit for enhanced driver comfort.

3. Dual closure system incorporates an adjustable hook and loop strap plus a traditional lace and hidden loop system for a more personalized fit and secure closure.

4. Strategically positioned perforation zones on the lateral and medial sides, and perforated tongue padding, for enhanced breathability and comfort.

5. Para-aramidic tubular lining construction for excellent heat-resistance and comfort.

6. Collar and tongue padding made from nitrile rubber for comfort and lightness.

7. Thin rubber outsole, derived from Formula 1's Race Program, delivers unsurpassed levels of feel and sensitivity with the pedals, while the textured pattern ensures optimum levels of grip.

8. Certified to FIA 8856-2018 homologation standard

The SP+ Shoes will be available in 4 new colorways: Black White, Black Red, Black Yellow Fluo, and Ultramarine Blue Light Blue.

Radar mechanics shoe

size us: 6 - 14

size eu: 38 - 48

Designed and developed for professional pit-crews, this shoe complies with FIA (FIA:8856-2018) homologation.

Main upper constructed from leather plus bycast carbon leather on heel and toe areas for durability and protection.

Dual closure system incorporates adjustable hook and loop strap grip plus traditional eyelet lacing system for a personalized fit and a secure closure.

Strategically placed perforated zones for cooling performance and maximized airflow.

Collar padding constructed from Nitrile rubber for comfort and weight-saving.

Tongue features perforated soft padding for comfort and improved fit.

Collar is cut lower at the rear to allow for greater Achilles' heel comfort and improved range of movement.

Ankle support improves comfort and support when kneeling and moving quickly during pit-stops.

Fire resistant fabric made with DuPont™ Nomex® ensures comfort, safety and a complete foot protection.

Ergonomic heel counter features compound construction which provides support and stability.

Alpinestars' exclusive rubber compound sole plus soft EVA provides support, protection and stability.

KMX-5 v2 suit

kart racing	size: 40 - 66
-------------	---------------

The key focus of development for the KMX-5 v2 Suit was maximum breathability whilst also reducing the weight.

In order to achieve this, an all-new outer shell material, developed exclusively for Alpinestars, has been combined with soft knit lining to provide optimum levels of protection, light weight and comfort.

Innovative laser cut perforations on the upper chest and back and open weave mesh structures at the torso sides, crotch and armhole, provide maximum airflow for cooling.

The result is a suit that will keep you cool when the temperature goes up, both in and out of the kart.

1. Advanced two-layer construction assembly for optimized performance, improved breathability, and weight savings.
2. New Laser perforations on the upper chest and back for maximum airflow and increased breathability.
3. Strategically positioned tech mesh panels positioned on the underarms, sides of the torso and crotch, for effective regulation of body temperature.
4. Engineered for durability with rein-

forced panels in the seat area and optimized for minimal material bunching.

5. Alpinestars fully floating arm construction with stretchable knit fabric on shoulder and lumbar area ensures minimal material resistance while driving.
 6. Anatomical arm, leg, and torso paneling is patterned to create the optimum position while driving.
 7. Knitted wrist and ankle provide a snug fit and help prevent unwanted movement of the suit.
 8. Premium YKK metal zipper, plus double slider for a versatile and customizable fit.
 9. Thigh pockets for convenient, unobtrusive storage.
 10. Athletic-Regular fit design.
 11. Certified to CIK-FIA Level 2 homologation standard, N 2013-1
- The KMX-5 v2 Suit will be available in 3 colorways: Black Dark Shadow, Black White Orange Fluo, and White Black Bright Red.

Tech-1 KX v3 glove

kart racing	size: s - 2xl
-------------	---------------

The Tech-1 KX v3 Glove is a premium karting glove, designed to deliver high levels of performance and featuring external seams for superior comfort and to prevent any pressure points forming on the hands while driving. Other neat design touches include a synthetic suede leather palm with a camo print and silicon surface for improved flexibility and grip, and a touch compatible print on thumb and index fingers for using mobile devices while at the track.

1. Two-layer stretch nylon-cotton main as-

sembly construction provides the optimal combination of comfort and feel.

2. Technical construction methods result in significant weight reduction.

3. New breathable mesh construction on the finger sidewalls to enhance breathability and reduce sweating.

4. External seams offer high level of performance, superior comfort and prevent any excessive pressure points on the fingers while driving.

5. Pre-curved finger and innovative palm design aids fit while reducing material bunching.

6. Ergonomically designed grip print on palm and fingers with strategically positioned silicon surface patterning for improved flexibility, grip, and control.

7. Touchscreen compatible thumb and second fingertip.

8. Alpinestars cuff opening with a 180° elasticated wrist for easy entry and secure fit.

The Tech-1 KX v3 Gloves will be available in 6 new colorways: Black Tar Gray, Black Yellow Fluo, Black Orange Fluo, White Red, White Yellow Fluo, and Red Black.

Bionic Rib support

protection	size: s - l / xl - 3xl	youth size: os
------------	------------------------	----------------

A high-performance, lightweight, ergonomically constructed supportive guard for the ribs, the Bionic Rib Support incorporates adjustable shoulder straps, a central chest belt and an adjustable back panel to offer kart drivers a supremely comfortable, customized and supporting fit.

The technical, multi-layered main construction has been optimized for a performance fit and enhanced comfort:

The advanced, soft poly-Lycra inner lining means the Bionic Rib Support can be worn under or over a garment.

The main body incorporates a 3mm high density poly-foam layer laminated with 3mm absorption EVA for enhanced impact and anti-vibration performance.

600D textile outer for high resistance

to friction and enhanced durability.

Dual-density, strategically positioned, ergonomically shaped rib guards incorporate fiberglass core and robust PE hardshell outer for excellent shock dispersion and damping performance.

The specially selected materials and components to offer crucial weight-saving performance.

Central adjustable back panel with hook and loop attachments offers a complete range of fitment, allowing the guard to be worn under or over a garment.

The fully adjustable front strap with D-ring closure features elasticated section for comfort.

The adjustable shoulder straps are constructed from highly breathable 3D mesh for optimum airflow and feature an elasticated gusset for a snug performance fit.

Youth neck support

youth protection	size: os
------------------	----------

Designed and developed for a fit that is specific to a youth driver's anatomy.

Frame constructed from injected polymer compound that has been extensively impact tested at performance on a range of off-road surface and varying temperatures.

Frame has been ergonomically engineered to promote contact with the helmet during impact – including rear support edge that fits closer to the body and raised chest to avoid hyper-flexion injuries - thus providing a solid surface which instantly channels damaging, compressive impact energy away from the neck and on to the support.

Frame's anatomical profile promotes positive helmet contact in event of a crash while allowing

driver freedom of movement.

Rear stabilizer system helps keep support in position and is also designed to channel extreme energy loads away from the spine by transmitting it across the shoulder and helping to avoid serious spinal injury.

Ultra-lightweight EVA foam on the support's underside for comfort and positioning and to distribute the impact force over the widest possible area.

Closure system for convenient engagement of support and to facilitate quick removal in case of emergency.

The support is supplied with the easy-to-use strap system which allows use over or under the suit to secure the device on the driver.

Tech-1 KZ v2 shoe

size us: 2.5 / 3.5 / 4.5 / 5 / 6 / 7 / 7.5 / 8 / 8.5 / 9 / 9.5 / 10 / 10.5 / 11 / 11.5 / 12 / 12.5 / 13	size eur: 34 / 35 / 36 / 37 / 38 / 39 / 40 / 40.5 / 41 / 42 / 42.5 / 43 / 43.5 / 44 / 45 / 45.5 / 46 / 47
---	---

Light, fast and extremely comfortable. The TECH-1 KZ V2 shoe uses state of the art flat knitting technology for a fully knitted upper construction that adapts perfectly to your feet.

PU film and padded reinforcements provide the support and protection required while the dual ankle strap closure and instep lacing adjustment keep them perfectly in place.

- Advanced seamless thermo-welded construction consists of ultra-thin PU film and textile to provide supremely lightweight performance and excellent comfort and fit.
- Elastic top collar and instep zone made in knitted upper textile.
- Sleek shoe profile conforms to the anatomy of

the foot and ensures great fit and performance.

- Dual strap closure hook and loop in the instep and top collar area enhanced to create a perfect and secure fit.
- Additional (NOT VISIBLE) instep fit adjustment for providing a perfect fit closure.
- Lateral side made in textile material to provide breathability, plus 3D print square graphics that enhance the protection and structure.
- Internal toe reinforcement for abrasion resistance and protection.
- Laser cut outs on the toe and medial side for added breathability.
- Collar padding constructed from PU foam for comfort and weight-savings.

10. Lightweight one-piece heel and insole construction for enhanced heel lockdown and comfort whilst driving.

11. Alpinestars exclusive thin rubber compound outsole, derived from Formula 1's Race Program, delivers unsurpassed levels of feel and sensitivity with the pedals, while the textured pattern ensures optimum levels of grip.

The TECH-1 KZ V2 Shoes will be available in 4 new colorways: Black White Gold, Black Yellow Fluo, Black Orange Fluo, and Black Enamel Blue Yellow Fluo.

2713023 1059 black white gold	2713023 155 black yellow fluo	2713023 156 black orange fluo	2713023 1795 black enamel blue yellow fluo

Tech-1 KX v2 shoe

size us: 2.5 / 3.5 / 4.5 / 5 / 6 / 7 / 7.5 / 8 / 8.5 / 9 / 9.5 / 10 / 10.5 / 11 / 11.5 / 12 / 12.5 / 13	size eur: 34 / 35 / 36 / 37 / 38 / 39 / 40 / 40.5 / 41 / 42 / 42.5 / 43 / 43.5 / 44 / 45 / 45.5 / 46 / 47
---	---

Bringing Formula 1 derived features, along with specific innovations for the kart track, the new Tech-1 KX V2 is now lighter and more breathable with a revised asymmetric lacing system to conform more closely to the foot. The use of thin PU film adds durability whilst reducing seam construction and pressure points. Laser cut-outs and perforations in the film, combined with 3D mesh, offer maximum breathability.

- Advanced seamless thermo-welded construction consists of ultra-thin PU film and 3D mesh to provide supremely lightweight performance and excellent comfort and fit.
- Sleek shoe profile conforms to the anatomy of the foot and ensures great fit and performance.

3. Laser-cut air-intakes and perforations on upper, with 3D mesh on tongue offer excellent breathability and comfort.

4. External heel, ankle and internal toe reinforcements for abrasion resistance and protection.

5. Dual asymmetric closure system incorporates adjustable hook-and-loop ultra-thin strap plus aramidic speed top lacing with Alpinestars' exclusive wire closure system. The system strategically envelopes the foot for optimal support and offers precise fit and secure closure.

6. New superlight tongue construction combining micro suede and 3D mesh, provides excellent breathability and superior comfort.

7. Collar padding constructed from PU foam for comfort and weight-savings.

8. Soft microfiber collar is cut lower at the rear to give greater Achilles' heel comfort and improved range of movement.

9. Lightweight, one-piece heel and insole construction for enhanced heel lockdown and comfort whilst driving.

10. Alpinestars exclusive thin rubber compound outsole, derived from Formula 1's Race Program, delivers unsurpassed levels of feel and sensitivity with the pedals, while the textured pattern ensures optimum levels of grip.

The Tech-1 KX V2 Shoes will be available in 6 new colorways: Black Dark Gray Green Fluo, Black White Red, Black White Yellow Fluo, White Orange Fluo Black, Red Black White, Ultramarine Blue Red Fluo Yellow.

Tech-1 K v2 shoe

size us: 2.5 / 3.5 / 4.5 / 5 / 6 / 7 / 7.5 / 8 / 8.5 / 9 / 9.5 / 10 / 10.5 / 11 / 11.5 / 12 / 12.5 / 13	size eur: 34 / 35 / 36 / 37 / 38 / 39 / 40 / 40.5 / 41 / 42 / 42.5 / 43 / 43.5 / 44 / 45 / 45.5 / 46 / 47
---	---

The Tech-1K v2 shoe is ultra-lightweight shoe and is optimized for maximum airflow and breathability, and has a contoured shape and is thus more proportioned to better adapt to the morphology of the feet, thereby improving comfort in the cockpit and reducing driver fatigue. There is also an ergonomic foot bed to ensure the foot maintains a natural, comfortable posture while also allowing maximum flexibility, support and free foot movement.

1. Advanced hybrid construction consisting of durable Nubuck microfiber upper and strategically positioned perforated microfiber areas to ensure light weight, excellent breathability and superior feel.
2. The external toe reinforcement is con-

structed using 3D rubber print for superior abrasion resistance and protection.

3. The dual and asymmetric closure system incorporates an adjustable hook and loop strap plus a traditional lace loop system coupled with a para-aramid eyelets system for enhanced durability, as well as a more personalized fit and a secure closure.

The new superlight tongue is constructed from a combination of perforated microfiber and mesh giving for optimum breathability and airflow and superior feeling. Strategically-positioned perforation zones on lateral and medial sides and toe for giving breathability. The collar is cut lower at the rear to al-

low for greater Achilles' heel comfort and an improved range of movement.

Alpinestars innovative foot counter is engineered for maximum performance: an ergonomic, polypropylene heel counter provides support and stability inside the shoe, while a flatter forefoot with die-cut ribbing provides greater feel with the pedals.

The ultra-thin Formula 1 specification sole uses Alpinestars exclusive rubber compound which is strategically ribbed for enhanced pedal sensitivity and grip in both wet and dry conditions.

External rear heel rubber for improved abrasion resistance and protection. Integrated PU heel for additional driver comfort.

---	---

Main upper constructed from microfiber for optimum levels of light weight, durability, comfort and fit.

Sleek shoe profile delivers optimized levels of performance both in and out of the car while ensuring optimal feedback from the pedals.

Mesh material on tongue for comfort and ventilation.

Ankle protection on collar for additional protection in a key area with mesh material construction for maximum airflow and breathability.

Rubber patch on heel zone for additional protection and stability.

Extensive lateral and medial laser cut perforations for enhanced ventilation and breathability.

Mesh lining with an open cell structure optimized for breathability and comfort.

New light and ultra-thin rubber compound sole for improved pedal feel.

Traditional lacing for ease of use with gloved hands.

Integrated rubber midsole for greater heel protection.

Polypropylene and mesh combine to create a double layer which sits on the footbed structure for enhanced driver comfort and a more precise fit.

Reinforced heel counter offers additional protection and structure in a key area for a precise and secure fit.

Printed graphic elements deliver excellent weight-saving performance.

Meta road shoe

size us: 4.5-13.5	size eur: 37.5-49
-------------------	-------------------

Designed for perfect all-day comfort for life in the paddock, the Meta Road performance running shoe is also a popular choice for management, technicians, and mechanics at the track.

Easy to slip on design with large toe box allows the toes to spread when kneeling for greater levels of comfort.

High resiliency, EVA insert located in the main midsole beneath the heel provides long-lasting softness.

Midsole wall wrapping snugly secures the foot and provides good stability and comfort.

Oil-resistant rubber sole improves grip on dirty surfaces.

Removable inner sock with open cell PU compound provides high breathability, reduces overheating, and offers high durability, and superb overall comfort.

Lightweight minimal construction with 360° tongue configuration ensures a glove-like fit.

Dual density PU foam is anatomically positioned to hold the ankle securely in place.

Flexible elastic laces allow the shoe to be secure while providing an amount of movement when worn for optimal levels of comfort.

Reflective detailing on the back.

City Hunter backpack

accessories	size: one size
-------------	----------------

· Aerodynamically profiled the City Hunter Tech Backpack features an innovative advanced load carrying system and ergonomic shoulder straps designed to redistribute weight evenly across the back for improved comfort and fit on long rides. With plenty of external and internal compartment storage options and a removable electronic device organizer, the City Hunter is ideal for city commuting.

· Advanced, multi-material main shell incorporating 420 denier poly-fabric; 420 denier rip stop nylon reinforcements on the base for strength and weight-saving, as well as improved durability, abrasion resistance and water resistance.

· Up to 25 liter capacity and designed for high load carrying capacity with a low profile for aerodynamic performance.

· External convenient, zippered compartments with main compartment for safe and secure storage. Side pockets feature waterproof zippers.

· Internal compartment incorporates electronic device organizer sleeve pocket to accommodate cables, laptop computers, tablets and smartphone devices. Sleeve pocket is fleece lined to avoid scratching laptop and tablets.

· Built-in helmet carrier conve-

niently houses all types of open or closed face helmets.

· Removable waterproof rain cover that is easily stored in the front compartment.

· Anatomically profiled back panel incorporates foam padding inserts and advanced air-mesh to promote superb air channeling and improved comfort while riding. Back padding also helps distribute weight evenly across the back area which is important for comfort on longer rides.

· Ergonomic shoulder straps with perforated foam padding and mesh panels for an optimized airflow, adjustable and removable sternum strap and the Alpinestars quick release system for a fast and secure adjustment.

· Removable waist strap featuring the Alpinestars quick release system for a fast and secure adjustment, also preventing flapping of the system webbing.

· Grab handle integrated into shoulder system for lightweight, ergonomic performance.

· Reflective details on the front and shoulder belts to improve rider's visibility in varying light conditions.

· YKK semi auto-locking zippers for a secure closure.
